

FELINE RISK-BASED ADULT VACCINATION RECOMMENDATIONS

Based on recommendations by the American Association of Feline Practitioners (AAFP)

Environmental Exposure—Low

YEAR	1	2	3	4	5	6	7	8	9	10	11	12
	HCP RABIES	Rabies	HC	P	Rabies	HC	P	Rabies	HC	P	Rabies	HC

Environmental Exposure—High

YEAR	1	2	3	4	5	6	7	8	9	10	11	12
	HCP RABIES FELV†	Rabies FELV†	HC FELV†	P FELV†	Rabies FELV†	HC FELV†	P FELV†	Rabies FELV†	HC FELV†	P FELV†	Rabies FELV†	HC FELV†

Environmental Exposure—Very High

YEAR	1	2	3	4	5	6	7	8	9	10	11	12
	HCP RABIES FELV† FIV*	Rabies FELV† FIV*	HC FELV† FIV*	P FELV† FIV*	Rabies FELV† FIV*	HC FELV† FIV*	P FELV† FIV*	Rabies FELV† FIV*	HC FELV† FIV*	P FELV† FIV*	Rabies FELV† FIV*	HC FELV† FIV*

Key H = Herpesvirus C = Calicivirus P = Panleukopenia FLV = Leukemia FIV = Feline Immunodeficiency

Environmental Exposure Environmental Exposure = Situations where contact with other cats or sharing of communal food/water bowls, litterboxes or other items could occur.

†Vaccination for FELV should be preceded by a negative FELV test.

*Vaccination for FIV should be preceded by a negative FIV test and the cat should have microchip identification in place.
